1. The following is an examiner's statement of reasons for allowance:

The present invention pertains an apparatus for adaptive multimode decoding for data packet-based communication and a method thereof. The prior arts of record, however, however, does not teach that a multimode decoding apparatus or a method thereof comprises the combination features of detecting a burst erasure; when a detected burst erasure has a burst erasure level which is greater than a first threshold, decoding a plurality of received data packets utilizing a first burst erasure correction code; when the detected burst erasure has a burst erasure level which is greater than a second threshold, wherein the second threshold is greater than the first threshold, decoding a plurality of received data packets utilizing a second corresponding burst erasure correction code; when a burst erasure has not been detect, decoding a plurality of received data packets utilizing a first random bit error correction code. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1, 3-14, 16-27 and 29-32 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (571)272-3831. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.
